Child Safety Code of Conduct

A Child Safety Code of Conduct lists behaviours that are acceptable and those that are unacceptable. It provides a high-level statement of professional boundaries, ethical behaviour and acceptable and unacceptable relationships. For more detailed guidance refer to the College's Staff and Student Professional Boundaries Policy.

When individuals are clear about behavioural expectations, they are much more likely to act appropriately with each other and with children. When everyone is educated about the Code of Conduct and the reasons it is so important to uphold, the College environment becomes much more transparent and people are accountable for their behaviour. Above all, a Child Safety Code of Conduct helps to protect children from harm.

The Child Safety Code of Conduct set out below is designed to stand-alone. It can also be incorporated in whole or part into broader Codes of Conduct that are developed within the College, including other professional or occupational codes of conduct that regulate particular staff at the College. The Code is made available to all staff, volunteers, families and students.
